List coach or coaches who will be at the game; at least ONE coach who is going to be there should be listed. Signature is required prior to game start.

Are there any players playing up?  Yes  No

If you select "no", the form will still print blank lines for insertion of player info manually on game day - you MUST return within 24 hours of game time to insert all handwritten names, pass numbers and teams of such players. If you select "yes", you must insert each player's uniform number, name, pass number and team for such players. Do not select yes just to create blank lines as the form already does that for you.

Are there any players playing up?  Yes  No

If you select "no", the form will still print blank lines for insertion of player info manually on game day - you MUST print within 24 hours of game time to insert all handwritten names, pass numbers and teams of such players. If you select "yes", you must insert each player's uniform number, name, pass number and team for such players. Do not leave blank lines just to create blank lines as the form already does that for you.

Add players UNIFORM NUMBER, NAME, and PLAYER PASS NUMBER here. Also, select the drop down menu of what team they are playing up from!

enter each player's uniform number, name and pass number and select the team from which the player is playing up as permitted by NCSA Rule 4.5. If a team is not listed in the drop down section, a player is not able to play up from that team to this team for which the Match Day Form is being created. The teams listed for eligible players playing up must be consistent with NCSA Rule 4.5.
